

ANADIUM TOOL CORP.

ATHENS, OHIO 45701

ATHENS, OHIO 45701
614 592-3006

TO OUR VALUED CUSTOMERS:

Whether you are a Distributor, a Retailer, or an End User of Vanadium Tools, we fully realize that our growth and success is totally dependent on giving each of you the best possible quality and service at competitive prices. We dedicate our efforts to this end, realizing that we are in a real sense "partners in business".

In this era of size and diversification, our company is relatively small, and specializes in the manufacture of hand tools. Because of this, we believe we are in the best possible position to satisfy your requirements.

Vanadium Quality Tools have been produced for over 25 years by people who care. Each tool is hot forged from Alloy steel and designed to meet the requirements of the professional user, — offering light weight, good balance, and exceptional strength. All Open End wrenches feature the V throat which insures a snug fit on the nut. *All your Vanadium Tools are unconditionally guaranteed against defective material and workmanship.*

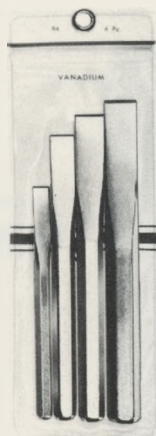

We appreciate and thank you for your business and will continue to make every effort to merit your support.

Sincerely yours,

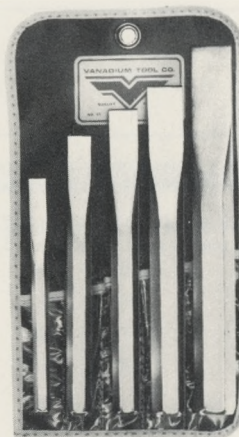

Alexander T. Topping
President

VANADIUM Quality Chisels & Punches

Vanadium chisels are hot forged from alloy steel, carefully ground and machined, heat treated, highly polished and nickel chrome plated. These chisels are fully guaranteed and represent the finest quality at competitive prices.
